OKSANA MELNYK, FRONTEND DEVELOPER

Remote

I am a frontend developer with one year of experience and a background in Sales Management. I specialize in creating responsive and user-friendly applications.

EXPERIENCE

FRONTEND DEVELOPER
Present - 01.2023

CryptoCap | GITHUB

CryptoCap is a cryptocurrency app that enables users to access real-time information about different cryptocurrencies.

- Developed a React-based application, integrated APIs to fetch and display up-to-date cryptocurrency prices and trends.
- Implemented ReactRouter to enable seamless navigation, allowing users to access detailed information about selected cryptocurrencies on a separate page with a chart.
- Ensured mobile responsiveness, making the application accessible

Used: React, API, Tailwind, ReactRouter, CHART.JS, Git, GitHub

PackCheck | GITHUB

An app that will help you package your luggage.

- Developed using React.
- Integrated local storage to persist user preferences and data, providing a seamless browsing experience across sessions.
- Leveraged Context API for state management, maintaining application-wide data.
- Utilized Git and GitHub for version control.

Used: React, Context API, LocalStorage, Git, GitHub

FRONTEND DEVELOPER, FREELANCE
04.2023 - 12.2023, 8mos

- Developed landing pages, collaborating closely with clients;
- Worked with designers and implement new features and bug fixes;
- Followed best practices for web development, such as using semantic markup and writing accessible code.

Used: HTML, SCSS, Swiper, JavaScript.
